PHILIPPINE OLYMPIC COMMITTEE

April 19, 2007

Bulletin # 1 NAMSSA Road Race

1) For the Philippine Superbike road race series of 2007 as of Round 2 we shall be implementing the minimum weight for the classes.

Supersports / Superbike Minimum Weights FIM Art. 2.5.2 page 77

- 400 - 600cc 4 stroke 4 cyl 158kg dry weight
- 600 - 750cc 4 stroke 2 cyl 166kg dry weight

The minimum weight is:- 600cc 4 cylinders 158 Kg ; 750cc 2 cylinders 166 Kg

- Without fuel tank a 4Kg discount is allowed (dry weight means no fuel)
- In the final inspection at the end of the race the inspected machines will be weighed in the condition they were at the end of the race.
- Dry weight (no fuel) for liquid cooled motorcycles. Water / oil may be added to the radiator prior to weighing.
- A 1% tolerance in the weight of the machine will be allowed after the race.
- Except for the addition of water to a radiator, established weight limit must be met after a race in the condition the motor cycle finished the race. All machine weights are without fuel.

2) For all classes a tolerance of 1% shall be given for the maximum said displacements for all machines in all the road race classes.
